

ESD 16/2.4 I

Diamond Dry Core Drill Machine

Use :

- Dry drilling up to 90 mm for particularly hard materials, e.g. highly compressed limestone, reinforced concrete and other abrasive materials with a high working speed
- Producing of wall and roof openings for sanitary, heating and ventilation installations
- For electrical installation work - socket sinking e.g. switches and sockets

Features :

- Powerful motor
- Electronic - soft start
- Gearbox with switchable soft percussion - high working speed
- Mechanical safety clutch
- Additional handle - variable adjustment on the collar

SPECIFICATION	ESD 16/2.4 I
Input Watts (W)	1100
Voltage (V)	220 - 240
Rated Speed (n) min-1	0-1100 / 0-2050
Spindle Connection	M16
Mechanical Safety Clutch	YES
Drilling Capacity in brickwork (mm)	Ø 162
Drilling Capacity in hard Concrete (mm)	up to Ø 90
Weight (kg)	3.7
