Magnetic Core Drilling

KBM 35 I

Magnetic Core Drilling

Use:

- → Electrical installation, sanitary and heating installations
- → Civil engineering, industrialised building construction

Features:

- → Line lockout
- → Safety Belt
- Carrying Case
- → Powerful motor
- → Superb service life
- → Extremly lightweight
- → Powerful electromagnet
- → Internal cable arrangement
- Epoxy sealed waterproof base
- Internal spindle cooling systemSafety fuse protection for magnet

- → 100% high tensile aline headed screws
- Compact, Light weight magnetic core drill
 with superb ease of use vertical
 - with superb ease of use vertical and overhead use.
- Unmistaken arrangement of switch for magnet & drill to ensure safety of operator
- → Core Bits Optional accessory as per your requirement.

Available in 110 V on special request

Specification	KBM 35 I
Input Supply Voltage (V)	220-240
Motor Input (W)	1050
Core Cutting Capacity (mm)	12 to 35
Core Cutting Depth (mm)	50
Rated Speed (RPM)	400
Weight (kg)	10.5

^{*} Core Bit is not a part of standard accessory
