

Mixing

FoodMix 1800 I MIXING STATION

**EIBENSTOCK
POSITRON**

Use:

- Homogeneous and lump free mixing of different kinds of food (f.e. lassi, honey, dough)
- Dust free working
- Especially for food industry, hotels, bakeries etc.

Features:

- Powerful and robust 1800W motor – very high performance
- 2-speed gearbox – the right speed for every application
- Well balanced center of gravity – easy tipping and precise pouring
- Pouring device – optimal disperse of the material
- Drive unit with stirring rod can be separated from the carriage without any tools – easy to clean
- Transport carriage with handles and 4 wheels – move into all directions, highest mobility
- Connection for dust exhaust – dust reduced filling and mixing of the materials, protects users and the environment

Sr. No.	Specifications	FoodMix 1800 I
1	Input Supply Voltage (V)	220 - 240
2	Motor Input (W)	1800
3	Max. Mixing basket diameter (mm)	180
4	No. load Speed (min ⁻¹)	440 / 970 rpm
5	Spindle connection	M14
6	Weight (kg)	53
7	Stainless Steel Container Ltr.	100
