

KDB 350-3

Diamond Core Drill Machine

EIBENSTOCK
POSITRON

USE:

- Wet drilling in reinforced concrete, natural stone and asphalt
- Ideal for plumbing, mechanical, electrical and general construction, as well as civil engineering

FEATURES:

- Three phase core drilling, water cooled for extreme requirements.
- No Load Speeds: 250/580/922 RPM
- Overload protection.
- Gear operation via mechanical protection.
- 3 speed gear oil bath
- Water connection mountable in different position.
- Type of construction made in protection class IP55 (Suitable for over head drilling)
- Water cooled motor construction.

* Core Bit is not a part of standard accessory

Specification	KDB 350-3
Input supply Voltage (V)	220-240
Motor input (W)	3000
Drilling diameter Ø (mm)	40-350
Rated Speed n (min^{-1})	230/500/1030
No load Speed n_0 (min^{-1})	0-1000/0-2200/0-4400
Spindle connection	1 1/4" UNC
Column length (mm)	995
Weight (kg)	30.9
