

#### Use :

- Demolition, trenching, breaking holes in concrete, chipping in blocks, and bricks.
- plumbing, mechanical installation, construction of water supply and drainage facilities and interior decoration.

#### Features

- Lock-on switch
- SDS MAX System.
- Chiselling angle adjustable by variable lock in 12-step.
- Anti-Vibration system, Ergonomic handle with soft grip.
- 360-degree auxiliary handle for improved drilling control.

Specifications	EPDH 5
Rated Voltage(V) :	220-240 V~ 50/60 Hz
Power Input (W) :	1300
Strokes per minute (BPM)	4100
Impact Energy	12J
Tool Holder	SDS MAX
Cylinder (mm)	Φ 35
Rotor (mm)	41.2*48
Stator (mm)	72*48
Weight (Kg) :	6.5
