EFB 68

The precise and low-dust
tile drilling machine

Dry drilling with dust exhaust of granite, tiles and panels made of ceramic material and natural stone indoors directly on the construction site, saves long distances

Speed regulation
Speed adjustment to the respective drill bit size

Exact positioning of the machine due to the **support hood & LED-light**

Allows **precise drilling** without slipping of the drill bit due to non-slip foam

Specifications	EFB 68
Power input	1400 W
No-load speed	3000 – 10000 rpm
Drilling diameter	Ø 20 - 68 mm
Usable length	35 mm
Spindle connection	M 14 male
Weight	3.5 kg
Order no.	0662H000

in a case, without drill bit

Order the right drill bits for your application at the same time!

Due to dust exhaust best **protection of the user against dangerous mineral dusts**, compared to conventional methods with angle grinders
