

### Uses:

- Civil engineering, industrialised building construction

### Features:

- Maximum stability and robustness.
- The precise saw table construction for clean cut.
- Construction site suitable forklift guides and a crane hook ensure trouble free transport.
- The anti-contamination positioning of the water pump reduce servicing requirement.
- The intelligent blade guard construction enables quick and easy blade installation.
- Removable water tank for easier cleaning.
- Protection cover from slug.
- Changing depth of cut with angle stop feature.

Specification	EPBS 650
Input Supply Voltage (V)	440
Motor Input (W)	5 HP (3.7Kw)
Max. Wheel Ø (mm)	650
Cutting Depth Single Pass (mm)	180 X 225 X 600 (Ø 600 mm Wheel) 200 X 225 X 600 (Ø 650 mm Wheel)
Rated Speed (min <sup>-1</sup> )	1450
Spindle connection	Direct Drive
Weight (kg)	185
