

KBM 40D

Magnetic Core Drilling

EIBENSTOCK
POSITRON

Use :

- Electrical installation, sanitary and heating installations
- Civil engineering, industrialised building construction & Heavy fabrication
- Mobile for easy transport to site

Features :

- Powerful motor
- Line lockout
- Easy feed lever change
- Safety belt
- Carry Case
- Superb service life
- Light weight
- Powerful electromagnet
- Epoxy sealed waterproof base
- Low power consumption
- Over load protection switch
- 100% high tensile alien headed screws
- Double dovetail slide to adjust the stroke of the machine

Specification	KBM 40D
Input Supply Voltage (V)	220 - 240
Motor Input (W)	1050
Max. Core Cutting Ø (mm)	12 to 40
Core Cutting Depth (mm)	50
Rated Speed (min ⁻¹) n	400
Spindle connection	19 mm Weldon
Twist drill Capacity (mm)	13
Over load Protection	Yes
Weight (kg)	9.6

* Core Bit is not a part of standard accessory
